Alice has a mathematics test for which she is underprepared. She has to do at least one question correctly to pass the decides to do a question which needs her to find the smallest prime number which is larger than a given integer N. You to find and return an integer value representing the smallest prime number larger than N.	
Input Format:	355
input1: An integer value N Output Format:	
Output Format:	223 K185
Return an integer value representing the smallest prime number larger than N.	55,
Sample Input 6	جري
	J823C5E
Sample Output 7	¥.
